STAY CONNECTED IN A REMOTE ENVIRONMENT

As a technology partner, High Touch enables businesses to be successful when working in a remote environment by offering virtual, cloud-based, and hybrid solutions.

Collaboration Tools

Microsoft Teams provides a secure virtual platform for businesses to work collaboratively, in one place, from anywhere, and on any device.

- Share, co-edit, and store files
- Send instant messages
- Make video calls
- Share screens
- Host virtual events

VoIP Phone Systems

You don't need to drive to the office to have access to a business phone number. In many cases, you don't even need to be in the office to have a phone system installed company-wide. VoIP telephone systems, whether on-premise or cloud-based, provide increased mobility and allow your workforce the flexibility of working securely from anywhere they have an internet or data connection.

HD Video Conferencing

When you're counting on video to communicate, high-quality sound and video is a must. Host 1-on-1 meetings or a 1,000-person event, virtually, securely, and professionally.
